If you choose to get an an engraving on the bottom, we will position it the best we can around the stamp.

Rattles

The handle of the dumbell rattle offers the most space for an engraving, allowing two line of text. The most popular way to have the handle engraved is with the name on the first line and the birthdate on the second line.

Indicate "Handle" in the shopping cart if you would like this placement.

Example: Style 310, handle James November 20, 1999

Engrave on Handle

The ends of the rattle are engravable. However, there is only a small amout of space available for engraving. It is best to keep the engraving to one line, generally a numerical date or short name.

Indicate "End" in the shopping cart if you would like this placement.

Example: Style 310, end 11-20-99

For an additional fee, you can have both the handle and the end engraved. Please indicate in the shopping cart how you would like it engraved.
